## WORK EXPERIENCES

---

### **DS Group S.p.A.**

Jan. 2023 - present

*Software Engineer*

- Mobile developer in the Enterprise department, developing and maintaining b2b solutions;
- Implementing features using custom libraries in Kotlin and Java;
- Apps that help technicians collect and manipulate data from different type of devices for an important international energy company;
- Developing b2b AI solutions that help introduce AI into clients business processes.

### **Credimi S.p.A.**

July 2022 - Jan. 2023

*Frontend Software Engineer*

- Member of the frontend team, in charge of developing and maintain company's website and products;
- Developed Credimi's new product page and new customer loan application flow;
- Worked on making maintainable and reusable web components in the web site restyling process;
- Integrated custom cookies scripts in Hubspot to better manage user experience for marketing purposes;
- Managed cookie compliance policy and cookie integration for landing pages.

### **Aleapro S.n.c.**

July 2019 – June 2022

*Mobile Developer*

- Analyzed, designed and developed new Android and Flutter mobile applications;
- In charge of external co-workers coordination and external partners support;
- Implemented complex UI design requests and integrated and customized providers' libraries;
- Developed a GPS locator, custom qr code scanner and bridges in C++ to collect data from IoT devices;
- Successfully identified, diagnosed, and fixed bugs and performance issues.

### **Fit Engineering S.r.l.**

March 2019 – May 2019

*R&D Team, Intern*

- Member of a team in charge of implementing an IoT communication system with a CNC machine to simplify reading of data flow.
- Studied CNC syntax and programmed CNC files;
- Developed a Windows dashboard in C# showing live inputs and outputs of the machine.

### **Spider4Web S.r.l.**

May 2018 – July 2018

*Frontend Team, Intern*

- Supported senior web developers in implementing minor features.

## PROJECTS

---

### Digital Rilievi Website

Developed and maintaining Digital Rilievi Srl website using Next.js framework.  
Website: [www.digitalrilievi.it](http://www.digitalrilievi.it)

### GC Studio Website

Developed and maintaining GCS website using Next.js framework.  
Website: [www.gennycantonstudio.it](http://www.gennycantonstudio.it)

### Plantastic

*Co-founder & President*

Plantastic is a non-profit project that facilitates networking between volunteers, landowners and donors to help the reforestation of local communities in northeastern Italy.

The idea is that through an app they can track trees they helped plant, monitoring their health and CO2 absorption. Fully developed the app in Flutter in my free time.

Note: Currently, migrating to a web app to reduce the cost of platform maintenance.

## EDUCATION

---

### ITS Alto Adriatico

Sept. 2017 – Aug. 2019

Diploma of higher education  
Mobile Development Engineering

### Università di Padova

Oct. 2015 – June 2017

Computer Engineering

## LANGUAGES

---

Italian	Native
Spanish	Native
English	Advanced proficiency

## CERTIFICATIONS

---

### ITIL® 4 Foundation

Dec 2024 – Dec 2027

PeopleCert - [Download](#)

### MasterZ x Solana Bootcamp

July 2024

Solana Foundation, MasterZ - [Download](#)

**Elements of AI - Introduction to AI**  
*University of Helsinki, MinnaLearn - [Download](#)*

Sep. 2023

**MasterZ Blockchain & Digital Assets - 2nd Edition**  
*MasterZ - [Download](#)*

June 2022

## TECHNICAL STRENGTHS

---

<b>Strong</b>	Native Android & Flutter Development, Kotlin, Java, Dart, SQL, Coroutines, Threading, REST, JSON
<b>Intermediate</b>	Node, React, Next, TypeScript, Docker, Python, LangChain
<b>Basic</b>	GraphQL, Blockchain
